

# Have Marketplace coverage?

Use these 4 tips throughout the year to keep your coverage up-to-date and help you stay covered.

## 1. Pay your monthly premium.

If you haven't already, pay your first month's premium to your plan directly. You must continue to pay your premium to keep Marketplace coverage

## 2. Submit any missing documents.

If you get a notice in the mail or an email saying there are data matching issues or "inconsistencies" in your application, it means some information you provided doesn't match our records. Follow the directions in the notice to submit documents to fix this.

## 3. Keep us updated.

Once you have Marketplace coverage, you must report changes to your income, household, address, and health coverage eligibility as they happen throughout the year. These updates may change your coverage or the amount of savings you're eligible for.

## 4. Remember to file your federal income taxes.

If you have a Marketplace plan and use the tax credit to lower your monthly premiums, you must file a federal income tax return, even if you don't usually have to file. If you don't file, you may not qualify for savings on a plan next year.

## We're here to help

Visit **HealthCare.gov** to get the most up-to-date information about the Marketplace:

- Learn how to report changes to your income and household.
- Find out how to resolve inconsistencies on your application.
- Learn how your taxes and coverage are related.
- Sign up for Marketplace updates and reminders so you're ready for the next Open Enrollment period.

You can also do most of these things by calling the Marketplace Call Center at 1-800-318-2596. TTY users should call 1-855-889-4325.
